This inaugural symposium aims to bring together a diverse group of sarcoma experts from the various disciplines across Singapore to update on the latest developments in the field. The meeting will be divided into two successive sessions, the first covering soft tissue sarcoma and the second, osteosarcoma. Specialists from the various disciplines of Medical Oncology, Surgical Oncology, Orthopaedic Surgery, Pediatric Oncology, Radiation Oncology, Radiology and Pathology will speak on diagnostic and therapeutic aspects of soft tissue and osteosarcoma management. Participants will have a chance to engage the experts in panel discussions moderated by the individual session chairs.
